

Dear Venue,

Below is a list of our technical requirements with regard to our forthcoming visit to your venue/festival. Please feel free to contact the office if you have any questions at all.

A Midsummer Nights Dream is performed on and around our pageant wagon (portable stage), which is intrinsic to the performance, with an additional tent for quick changes and musical instruments. The following technical back-up is required from yourselves;

1. Performing Area - Minimum width **8m (25')** x **8m (25')** depth
Minimum height **5.5m (18')**
2. Seating - We prefer Amphitheatre style seating. **(If fixed seating is in place then it is the responsibility of the booker to provide staff to set up the seating, unless on hire from us. If there is no fixed seating it is the responsibility of the booker to arrange and marshal the seating of the audience) Tiered Seating and can awning can be hired from the company. Please ring 01332 258328 for more information.**
3. Special Effects - We may use theatrical flashpots and we may perform fire-eating or fire-blowing. **(All provided by us)**. Please inform us immediately if any of these will cause difficulty at your venue.
4. Get In - Minimum **3 hours preferably 5 hours, Access Required 1.8m (6')** wide, (can be achieved with less, but longer get in and extra labour required) If stairs have to be negotiated please inform us **beforehand**.
5. Lighting - Basic general cover of performance area plus extra to cover people standing on our pageant wagon. Overall cover for up to a two hour get out after the show. **110V Lighting can be hired from us at a cost of £85.00 + VAT per show.**
6. Staff - One technician to rig any required lighting, unless hired from us. Staff to marshal the event as per contract.
7. Dressing Rooms - Well lit changing rooms and toilets available from Get-in.
8. Parking - We will be touring two vehicles which we will require free parking for and access to, at all times.
9. Refreshments - At least 3 litres of fresh drinking water, (preferably mineral water), and six beakers available for each performance.

N.B. If you are in any doubt about our technical requirements, please do not hesitate to contact us as soon as possible, to clarify the situation.

We would be grateful if you would confirm the above technical requirements in writing at your earliest convenience, together with a brief description of the performance space, flooring, shelter, power supply and technical back-up available should it be required.
